

“The Huxley Training Aid is ideal for teaching and coaching purposes or for anyone wanting to regularly practise their putting stroke at home, the office, golf club or range.”

Alison Nicholas, 1997 U.S. Women's Open Golf Champion and European Solheim Cup Captain

Huxley® Golf

Premier All-Weather Surfaces for Golf

Huxley Modular Putting Greens

Helping Make Practice Perfect.

Huxley Golf presents its superb range of modular putting greens, delivered in kit form ready for fast, simple DIY assembly in just about any location, inside or out. All that is needed is a firm stable surface and a screwdriver and within minutes you'll be on your way to improving your putting.

Recommended for golfers of all standard and ages, Huxley Modular Putting Greens bring you the quality of a professionally installed and maintained golf green at a fraction of the cost. Ideal for serious putting practice, for coaching and tuition and for corporate events, social occasions, entertainment and pleasure.

Huxley Modular Greens are available in a range of standard sizes, from the ever-popular 9ft Training Aid up to a 12ft x 18ft Modular Green and also with a selection of surfaces, however bespoke sizes and designs are available upon request for personal preferences or corporate events. They are supplied in kit form with pre-cut turf ready for DIY assembly on just about any firm, stable surface.

1997 U.S. Women's Open Golf Champion and European Solheim Cup Captain, Alison Nicholas commented, “The Huxley Training Aid is ideal for teaching and coaching purposes or for anyone wanting to regularly practise their putting stroke at home, the office, golf club or range, Its modular construction makes for

fast, easy assembly while its compact size takes up very little floor space in use or when put away afterwards. The Training Aid is proving a most useful addition to the facilities offered at my academy."

The Huxley Training Aid comes equipped with all the attachments required to perfect your putting stroke. Available in 9ft or 13ft lengths both models will include the stroke groove block which helps you remain square to the ball, as well as assisting with the correct back swing and follow through avoiding deceleration of the putter. The string line and the hash mark behind the flagstick will help maintain the correct head and body position during the stroke, while the ball marking tool will allow you to monitor the pureness of your putting stroke. There is a hole cup size reducer and contour pads for breaking putts and with the movable stance board, it is suitable for both left and right-handed golfers.

Huxley Modular Greens are used by a number of the world's leading tour professionals and top coaching establishments, allowing flexible practice

Most important of all, you can be certain that your Huxley Modular Putting Green will consistently deliver the feel and roll of a natural green, so that when you practice on a Huxley surface, you'll reap the benefits next time you're out on the golf course.

Quickly and easily assembled or dismantled, Huxley Modular Putting Greens are perfect for the home and garden, for business premises, shops and showrooms, for hotels, country clubs and leisure resorts, for pro shops, academies, golf practice ranges and for many other locations. Our standard range of Modular putting Greens will fit into spaces from less than 20 square feet (2 square metres) right up to 220 square feet (20.5 square metres). Special shapes and sizes are available to order. Please contact us for information.

facilities in almost any environment and provide a valuable training tool for budding golfers, top amateur golfers and professionals alike. The patented modular panel design makes assembly easy. Simply slide the base panels together, then insert and tighten the retaining screw, install the adjustable floating hole cups and then finally roll out the ready cut turf, insert the flagsticks and you're ready to play.

Huxley Modular Greens are extremely durable, weather resistant, UV stable and colour safe. The grid construction of the base panels provides tremendous strength, and yet each panel weighs an average of just 3kg, making them both easy to handle and store. The patented design allows the individual panels to flex to compensate for uneven surfaces – ideal if you want to set up a Huxley Modular Putting Green on turf or a composite surface outside.
