

“I use the Huxley Rotanet for practice at home. It’s quick and simple to set up, takes up very little space and allows me to practise my shots whenever I want.”

*Alison Nicholas, Former US Womens' Open Chamption 1997 and European Team Captain for the 2009 and 2011 Solheim Cup*

## Huxley Rotanet

### Helping Make Practice Perfect.

No matter whether you are a beginner, intermediate or experienced golfer, the Huxley Rotanet makes it quicker and easier to practise your golf shots.

Suitable for installation indoors or outside, the Huxley Rotanet can be set up in just two minutes, making even 10 minutes of practice readily achievable and really worthwhile.

Then when you've finished practice for the day, the Huxley Rotanet can be retracted and stored tidily beneath its waterproof cover. Alternatively, the Huxley Rotanet can be removed completely from its position and put away safely and securely until next time.

Ideal for installation at home, at the office, the golf club or teaching academy, the Huxley Rotanet is a great practice aid that will help improve any game and keep your swing in tune.

Ready for play in just 2 minutes.

The Huxley Rotanet enables practice at any time thanks to its unique retractable design which allows the net to be set up in just two minutes... and then stowed away neatly in the same amount of time.

The Huxley Rotanet comes complete with three permanent hammer-in ground sockets that support the opened net during practice. For those wanting to use the Rotanet indoors or as a temporary installation outdoors on grass or hard surfaces, there is an optional free-standing frame.

The compact, unobtrusive design of the fully-retracted Huxley Rotanet means that it can be left in place after practice, protected by its waterproof cover. As an alternative, simply lift the complete assembly (it weighs just 32lbs/14.5kg) from its location and store away safely until next time.
